CURRENT POST

FPSO SUPPLY CHAIN

RFQ → PO

MWS

- Develop and implement project logistics strategies — customs, transport, storage and receipt of materials — for major offshore projects.
- End-to-end supply chain of mechanical and electromechanical equipment for FPSO projects — to budget, to schedule.
- Lead a technical logistics team: day-to-day supervision, task allocation, mentoring and onboarding.
- Oversee Group-level purchasing from RFQ to PO award — freight forwarders, agencies, marine warranty surveyors, material control.
- Negotiate rates and service levels with carriers and logistics providers, driving cost and lead-time reductions.
- Monitor vendor and service-contract performance against scope and budget; enforce recovery plans on time.
- Interface with Engineering, Insurance, Tax, Legal and Compliance to align decisions and resolve issues.
- Apply export control, customs and transport regulations, and Company Ethics & Compliance (anti-corruption) procedures.
- Vendor field visits during fabrication; safety in loading and unloading; logistics status reporting to project management.
